Synopsis

This Nutshell follows the structure and format of the authors' casebook *Children and the Law: Doctrine, Policy and Practice*. Very good text for a fast read on *Children and the Law*; however, I believe the author's need to go back and research what Court Appointed Special Advocates for abused and neglected children (CASA) actually do and the responsibilities they have in being a voice for children. We do not have council to represent us, but convey our findings to the judge directly (e.g. school records, medical records, and IEPs, etc). If the author's would have researched the National CASA organization, it would have cleared up many points that were not made, instead of saying "Unfortunately the CASA's role is often unclear." and then citing one court case. The 8 lines in the text did not do us justice, so either do some in depth research on the CASA program (which has its roots in Seattle), or leave it out of your text.

Short and Sweet! It's a great way to read up on laws and cases involving children. Very brief and straight to the point, every cases is readable and understandable :)

Gives a good understanding of the law regarding children. It is well written

Easy read well constructed and written.
